EMPLOYMENT HISTORY

Analyst Programmer   Nov 2015 – Jan 2017
Synchronised Software Pty Ltd
- Analysed requirements, working closely with business analysts to identify gaps and ambiguity in the functional specifications to reduce the number of defects raised
- Became proficient in Syncsoft's in-house "CTL" language, going on to teach and assist new analyst programmers
- Followed development procedures involving change request numbers, implementing technical specifications and participating in code reviews
- Delivered regular progress updates in stand-up meetings and was actively involved in discussions about issues and potential solutions
- Consistently developed new modules and updates for the Capital registry administration system consisting of forms and interfaces that interacted with the databases
- Created complex CTL functions and SQL procedures and transactions
- Actively debugged and resolved defects raised by the QA team on Jira in order to meet project deadlines in addition to other development tasks.
- Frequently deployed code changes from development environments to product environments for the QA team

Achievements
- Awarded "Star of the Month" by the client for contributions made towards the project

Team Member   Dec 2014 – Jan 2015
Lavezzi Gelati and Desserts
- Provided outstanding customer service
- Prepared food and drinks
- Worked as a team with three or four other people
- Replenished stock in the store
- Handled cash using cash registers

Stock Manager   2011 – Current
Glitz & Glamour Hair Extensions [Family Business]
- Maintained a relationship with overseas suppliers to ensure the quality and consistency of the deliveries of orders
- Arranged payments for orders and then tracked their progress and delivery
- Managed inventory and the replenishment of stock
